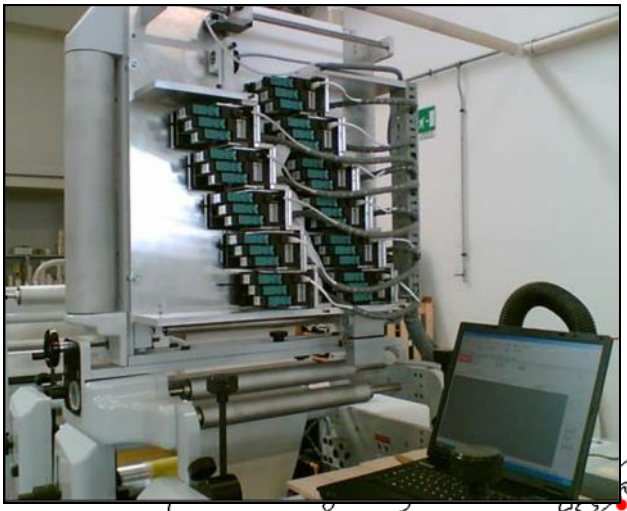
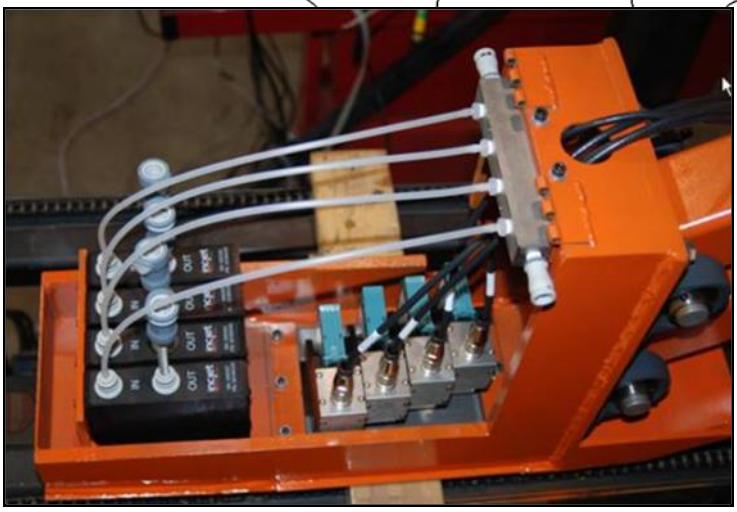
WORLD CLASS PRINT SOLUTIONS





incjet
PROBLEM SOLVED

WHERE EXPERIENCE AND INNOVATION IS BORN

From Mailing to Packaging,

For decades, inc.jet has been designing, testing, and manufacturing the highest performance industrial printing solutions for the mail, graphics and packaging industries - excelling under the most demanding production conditions. Using HP's Thermal InkJet technologies (TIJ), inc.jet' s commitment to constantly developing the capabilities and efficiencies of its solutions have kept us in front in our industry - and helped clients keep out in front of theirs.

Operational Excellence

Our operations perform at the same high level as our products. With sales and support facilities on three continents, - North America, Europe and Asia - you are assured of support that is second to none. We are totally committed to supporting our customers with solutions that consistently deliver time after time and actively help them achieve their printing goals..

Designed and Built in the USA

Founded in 1998 and headquartered in Norwich, CT, inc.jet supplies rugged and effective variable data printing equipment and solutions to OEMs and integrators in the commercial packaging, graphics and mailing markets throughout the world. Incorporating TIJ 2.5 technology from Hewlett-Packard, inc.jet products include easy-to-integrate hardware, software and ink supplies that make the printing of variable data effortless in most situations.

PROBLEM SOLVED

PACKAGE CODING SIMPLIFIED

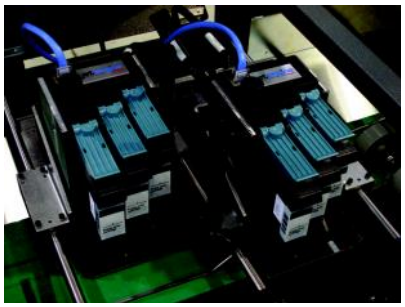
With their industrial-strength build and high-performance components, inc.jet's packaging printers fit into virtually any manufacturing/packaging environment. And with an extensive range of inks available, there is practically no material that cannot be printed on clearly, quickly and efficiently.

It is simple to integrate inc.jet's packaging printers into existing packaging lines and equipment. With industry standard mounting configurations and a design that takes up less room, inc.jet's packaging

products are a smarter alternative .

Whether you're printing small or large characters, fixed images, lot and date codes, or even variable data, inc.jet's packaging printers can do it all. With rugged, flexible hardware, software that puts you in control of how you integrate inc.jet into your projects and the widest range of inks for printing on almost anything — from paper to foils, in black or in color — inc.jet's packaging printers provide the ultimate industrial print system.

MAIL AND GRAPHICS PRINT SOLUTIONS



The jet.engine is a highly recognizable variable data print head that is flexible, controllable and extremely practical. Its "no-mess" high-quality output and easily integrated technology ensures its applicability with almost any situation and on any surface. With the ability to control variable data print jobs from set up through output, the jet.engine delivers solutions without the hassle and expense of purchasing complicated variable data printing equipment.

The jet.engine provides a variety of options and applications that fit your company's specific needs, while giving you the opportunity to expand and further develop your printing capabilities. With adaptable hardware that allows you to exceed your previous printing capacity, inks that will print on virtually any substrate and software that puts full control at your fingertips, the jet.engine is an all-inclusive variable data printing equipment solution.

OEM Solutions

Where an OEM wishes to design and create their own TIJ printers based on inc.jet hardware and firmware, inc.jet offers a complete range of boards to facilitate this.

The two essential elements required are the main print controller PCB, available in a one pen or 4 pens variant and the pen driver board, which connects to the pens on the ink cartridge. The OEM can supply the rest.

inc.jet provides all of the documentation, software (if required) and technical support needed from our team of applications engineers

Integrator Solutions

inc.jet's integrator solution, take the next step up in creating a set of products that can be integrated easily into the widest variety of equipment. They are ideal for project based applications where print capability needs to be included.

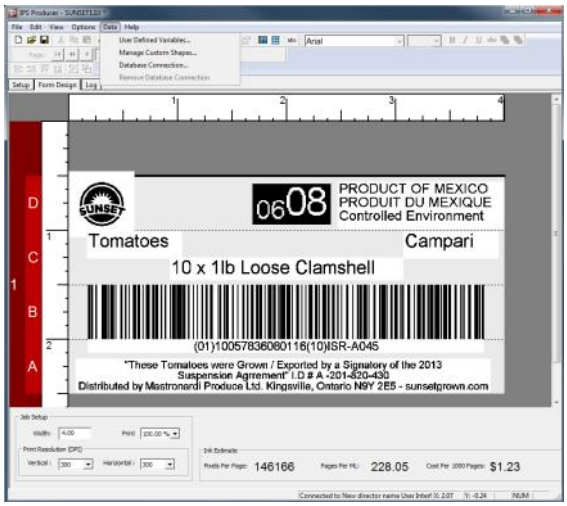
Enclosed print controllers and a variety of differing pen styles means that Integrators can find the products that suit their specific installation. From enclosed Print Controllers with ruggedized connectors to ancillary electronics such as cabling, encoders and sensors .

Turnkey Reseller Solutions

If you require a complete print system that requires little integration and engineering, then the Reseller focused packaging print solutions are ideal.

Constructed of industrial grade stainless steel with rugged design and solid connections to external elements they make a efficient and cost effective commercial off the shelf solution.

Easy to use, yet incredibly powerful software completes the total package.



LIFETIME WARRANTY = TOTAL CONFIDENCE

Lifetime Warranty for your peace of mind

A guarantee of reliability is what your business needs today. And a company to stand behind its words.

inc.jet does just this by offering a genuine Lifetime Warranty on its hardware*. If there is ever a problem, we will replace it free of charges for the Lifetime of that product whether one year or ten years from now.

Making Print Even Better

Managed Print improves the ease of use and quality of printing for inc.jet's printing systems. It recognizes the exact ink and cartridge type of any jet.fuel cartridge that has been placed into the system and configures the system to maximize performance and print quality. With Managed Print you can be assured that what you need to print is exactly what you get – first time, every time.

- Improved ease of use – No need to program ink drive parameters
- Enhanced Performance
- Ink tracking and cartridge type awareness
- Complete nozzle checking
- Ability to fine tune drive parameters for specialized applications
- Print resolution up to 600 dpi
- Expanded maintenance and recovery features to keep cartridges working in the most difficult applications

** see Managed Print flyer and Lifetime Warranty documents for more details.*
